

AQUATIC SPORTS COURTS

aQuolley® Beach is a patented, lightweight, portable, and versatile aquatic sports court designed for easy installation in shallow waters at lakes, seas, or pools.

Tailored for **teams of 1 to 6 players**, it reinvents sports like volleyball, badminton or beach tennis for the water, creating excitement and thrill.

Perfect for all ages and skill levels — whether men or women, young or old — up to 12 people can jump into the action right away!

Two configurations are available: the single-court version is designed for competitive play among advanced players, while the double setup is ideal for families with children and beginners.

Space requirements range from 10 x 6 meters to 16 x 8 meters, with a maximum play area of 12 x 6 meters. The ideal water depth is between 0.6 and 1.3 meters.

KEY FEATURES

Adjustable Court Size and Net Height

Provides optimal adaptability, customized to the number of players, their skill levels, and the specific geographical features of the location.

Easy Access and Egress

Entry and exit are effortless, simply lift the court lines for smooth transitions in and out of the play area.

Portable Structure

The key components can be quickly disassembled, clearing the area in just minutes.

Modular Design

Built from independent, robust yet simple modules, the court allows for fast and easy repairs or replacements.

Pool Variants

Pole positioning and underwater fasteners can be adjusted to suit local conditions, allowing for flexible removal based on preference.
